

## Building Chatbot

Team ID	PNT2022TMID33995
Project Name	Smart Fashion Recommender Application

### BUILDING CHATBOT:

The screenshot displays the IBM Watson Assistant Lite interface. At the top, the header includes 'IBM Watson Assistant Lite', an 'Upgrade' button, a user profile 'Kiki', and links for 'Learning center', help, and user management. The main workspace is divided into three panels:

- Left Panel (Conversation steps):** Shows a sequence of steps for a chatbot conversation. Step 1 is the initial greeting: 'Hey I am Kiki. I am your Fashion Recommender! Its my pleasure to recommend products for you. Can you...'. It includes buttons for 'Male' and 'Female'. Step 2 is triggered by '1 is Male' and provides recommendations for male dresses. Step 3 is triggered by '1 is Female' and provides recommendations for female dresses. The sequence ends with 'Action complete'. A 'New step +' button is at the bottom.
- Center Panel (Customer starts with):** Provides instructions on how to define starting phrases for the chatbot. It includes a text area for 'Enter phrases your customer might use to start this action' and a list of example phrases: 'Suggest me few products', 'Recommend me few products', 'Show me few recommendation of your products', and 'I want you to recommend me few products of your store'. Each example has a delete icon.
- Right Panel (Preview):** A 'Preview' button with a play icon to test the chatbot's responses.
